General Curriculum Information

English (by placement): Satisfactory completion of the writing skills exam is a prerequisite for ENG101. Students who do not satisfactorily complete the writing exam must register for ENG091 and/or ENG100 prior to completing their six (6) hour English sequence.

Mathematics (by placement): Mathematics placement is based on the ACT, ASSET, or COMPASS placement test.

Reading Proficiency Requirement: All students will be required to demonstrate proficiency in reading through testing prior to earning a degree or certificate. Students who do not meet the required standard will be expected to begin remediation immediately.

Foreign Language Requirement: Proficiency through the 201 level is required. Proficiency may be determined by a placement test in the language: Spanish or French. (Generally, SUNY institutions accept ASL if students are in a helping profession, such as teacher education, nursing, etc. Students should check with their transfer institution to determine if ASL is accepted as a foreign language and ask for a waiver.)

General Electives: Electives for this program should be selected with the transfer institution and program of interest in mind. For additional assistance with course selection, see the Transfer Coordinator in the Career & Transfer Center.

Guidelines for Registering for Foreign Language Classes

Placement in foreign language courses is based on prior experience in the language. You must follow the guidelines below when registering for a language course.

This chart applies to both Spanish and French courses. The 101 courses are designed for the true novice. If you have had two or more years of high school foreign language and the time elapsed since you completed your high school language study is less than two years then 101 is not the class for you.

- Seventh and eighth grade together usually count as one year.
- Do not count elementary school Spanish.
- Time elapsed since successful completion of high school study is not more than two years. If the time elapsed is more than two years your placement may depend on other factors.
