

**LIBERAL ARTS AND SCIENCE:
GENERAL STUDIES (AS) PROGRAM STUDENT LEARNING OUTCOMES**

Upon completion of the program, students will be able to:

1. Demonstrate the skills and knowledge needed to think critically and employ creative problem-solving.
2. Develop sufficient background in a Humanities or Social Science discipline to qualify for upper division study.
3. Recognize, employ and assess effective communication skills, textually, and orally.
4. Demonstrate quantitative reasoning skills.
5. Recognize and apply scientific methods to explore social and natural phenomena.
6. Demonstrate foundational knowledge and information technology research skills required to be an informed citizen in the global community.
7. Demonstrate the basic skills required to communicate in a foreign language.
8. Engage in recognition, analysis, and creation of artistic and literary expression.
9. Demonstrate awareness of self in connection with academic and personal goals.
