

SOLAR ELECTRIC TECHNICIAN (CERT) PROGRAM STUDENT LEARNING OUTCOMES

Upon successful completion of the Solar Electric Technician Certificate program, the graduate will be able to:

1. Install solar electric (photovoltaic) systems applying nationally accepted industry standards.
2. Maintain solar electric systems applying nationally accepted industry standards.
3. Test and adjust solar electric systems using nationally accepted industry standards.
4. Safely and accurately diagnose common malfunctions for solar electric equipment.
5. Perform corrective repairs for solar electric equipment.
